# View the health and details of a cluster

After you add a cluster to the Astra beta program, you can view details about the cluster, such as its location, the worker nodes, persistent volumes, and storage classes.

## Steps

1. Click **Compute**.
2. Click the name of a cluster.
3. View the information in the **Overview** and **Storage** tabs to find the information that you're looking for.
  - **Overview**: Details about the worker nodes, including their state.
  - **Storage**: The persistent volumes associated with the cluster, including the storage class and state.
